

## Date formats

If you import data from Excel files (XLS, XLSX), Streamline understands any date that is formatted by Excel standards. For text files like CSV, the date should be in one of the following formats:

- dd.mm.yy
- m/d/yy
- mm/dd/yyyy
- yyyy/mm/dd
- yyyy-mm-dd
- yyyy\_mm\_dd
- yyyymmdd

Streamline also recognizes these formats in Excel files.
