1.2. Software Downloading and Installation

You have to download an executable file that includes all the files needed for the complete installation. You do not need to remain connected to the Internet during the installation. The file can also be copied to a computer that is not connected to the Internet.

If you are installing an update, close all GMDH Streamline windows before starting the installation process.

- Go to the download page. After filing the form, you'll get a download link via email.
- Follow the link in the email, and the download process will start immediately.
- If your browser prompts you to run or save the download file, click **Save** and choose a location on your computer, for example, your desktop.
- Double-click on the saved file to start the installation process and additionally allow it by clicking **Yes**:
